## 1, 2, 3 Science Clipart Food Webs Set

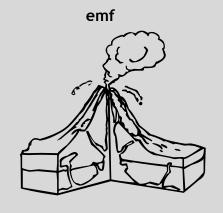

Welcome to 1, 2, 3 Science Clipart, the Food Webs Set! This collection includes:

 Food Webs - A variety of land-based and aquatic organisms that are perfect for creating food webs and chains.

## About the images...

All of the images in this set are presented in both .PNG and .EMF (Enhanced Meta File) format. PNG files can be edited in basic paint programs, but may become "fuzzy" when enlarged. EMF files are more clear when enlarged, but cannot be edited in most paint programs. Both formats maintain transparency, meaning they do not have a white box around them as would be found in JPEG images. In the examples below, the .jpeg is not as clear when enlarged, and also maintains a white "fill" inside and around the image. The .emf and .png images have a transparent "fill", making them appropriate to use on any background color.

**PNG** files can be previewed in a folder, but **EMF** files can be difficult to preview. Every effort has been made to make filenames as descriptive and logical as possible, and image guides have been provided on the following pages.

## Food Webs Clipart - 1

					<b>*</b>	<b>&gt;</b>	
fw acorn	fw algae	fw alligator	fw anemone	fw arrow down	fw arrow left	fw arrow right	fw arrow up
					<b>—</b>		
fw bacteria	fw bat	fw bear	fw blue marlin	fw box 1	fw box 2	fw bush	fw catfish
fw clam	fw clover	fw cougar	fw crab	fw cricket	fw deer	fw dolphin	fw dragonfly
				2000 2000 2000 2000 2000			
fw duck	fw eagle	fw eel	TW fish large	fw fish small	fw fly	fw fox	fw frog
		Market Stranger Stran	all of the second				
fw grain	fw grass	fw hawk	fw heron	fw jellyfish	fw krill	fw leaf	fw lion
fw lizard	fw lobster	fw man	fw mice	fw moose	fw mosquito	fw mushroom	fw orca
(a)							
fw owl	fw pelican	fw penguin	fw phytoplankton	fw polar bear	fw rabbit	fw raccoon	fw robin
				Salato Money			Sandy .
fw sea cucumber	fw sea turtle	fw seagull	fw seal	fw seaweed	fw shark	fw sheep	fw shrimp

## Food Webs Clipart - 2

fw snake	fw spider	fw squid	fw squirrel	fw starfish	fw stingray	fw sun	fw tuna
fw turtle	fw vulture	fw walrus	fw whale	fw wildebeest	fw wolf	fw worm	fw zebra
fw zooplankton					<b>&gt;</b> L
