

# 1, 2, 3 Science Clipart Science Tools Set

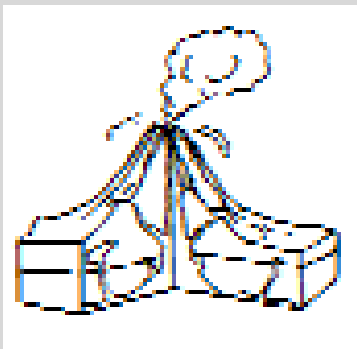

**Welcome** to 1, 2, 3 Science Clipart, the Science Tools Set! This collection includes:

- **Science Tools** - A collection of items commonly find in a school's science lab.

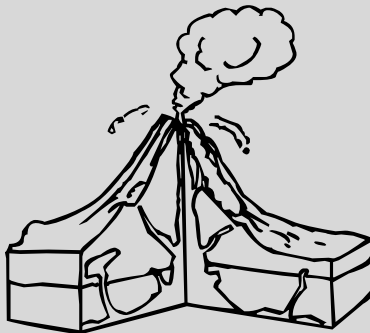

## About the images...

All of the images in this set are presented in both **.PNG** and **.EMF** (Enhanced Meta File) format. **PNG** files can be edited in basic paint programs, but may become “fuzzy” when enlarged. **EMF** files are more clear when enlarged, but cannot be edited in most paint programs. Both formats maintain transparency, meaning they do not have a white box around them as would be found in **JPEG** images. In the examples below, the **.jpeg** is not as clear when enlarged, and also maintains a white “fill” inside and around the image. The **.emf** and **.png** images have a transparent “fill”, making them appropriate to use on any background color.

jpeg

emf

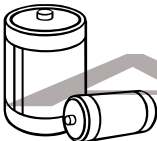

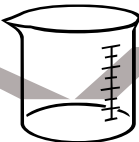

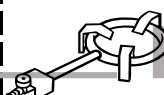

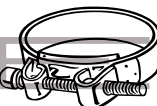

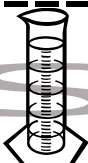

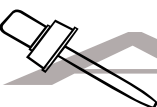

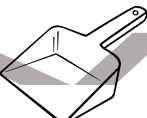

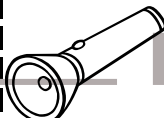

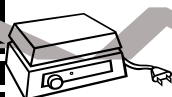

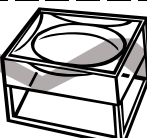

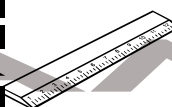

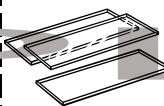

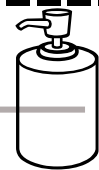

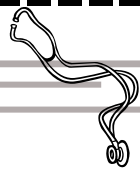

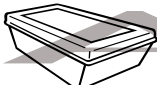

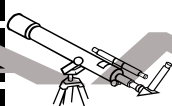

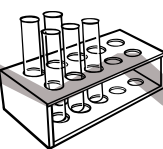

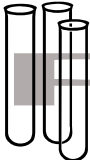

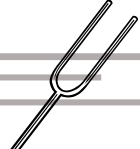

png

**PNG** files can be previewed in a folder, but **EMF** files can be difficult to preview. Every effort has been made to make filenames as descriptive and logical as possible, and image guides have been provided on the following pages.

# Science Tools Clipart

 apron	 batteries	 beaker	 binoculars	 bottle brush	 brush	 burner	 clamp
 cylinder	 dropper	 dustpan	 eyewash	 fire extinguisher	 first aid kit	 flashlight	 funnel
 gloves	 hand lense	 hotplate	 lense	 magnet	 measuring tape	 microscope	 mirror
 petri dish	 prisms	 ruler	 safety goggles	 scissors	 slides	 soap dispenser	 stethoscope
 stopwatch	 storage box	 telescope	 test tube rack	 test tubes	 thermometer	 tongs	 tuning fork
